## EXPERIENCE

**Dec 2021 - present**

**CGS Romania** - Frontend Developer  
Galati, România

- I developed and maintained a web application designed to solve a specific problem on the project I was working on. The purpose of the application is to centralize multiple excel files the team was dealing with. This saves time and solves possible issues such as data loss or file corruption.
  - Built the frontend of the app using Vue.js and implemented the backend using Firebase.
  - Implemented an auth system so each user could access their own files.
  - Implemented a function to format and rename the files automatically according to the project guidelines.
  - Implemented a news system to share new procedures with the team using GraphQL and GraphCMS.

**Nov 2020 - Present**

**CGS Romania** - Quality Analyst - Team Leader  
Galati, România

- As a Team Leader and QA, I guided the implementation of strategies designed to achieve planned goals. Managed a team of 20+ employees, evaluated their work and monitored the project to ensure its progress.

**Jan 2020 - Nov 2020**

**CGS Romania** - Technical Support Agent  
Galati, România

- As a technical agent I ensured technical support via the ticketing system according to the procedures shared across the team.

**Jan 2017 - Oct 2019**

**Thorntons Recycling** - Transport Planner  
Dublin, Ireland

- I developed transportation strategies and worked to improve travel for both individuals and the transport of goods.

**Jun 2015 - May 2017**

**Sky Handling Partner** - Airport Op. Specialist -TL  
Dublin, Ireland

- I developed transportation strategies and worked to improve travel for both individuals and the transport of goods
